Xerus Firmware Release Notes

Server Technology
A brand of legrand®

Version:	Xerus 4.3.12 / Build 52435
Release Status:	Limited Availability (LA)
Date:	February 10, 2026

Xerus 4.3.12 Firmware is a Limited Availability (LA) Release and may include performance and productivity improvements, support for new products and accessories, new features and enhancements, bug fixes, and general fixes for specific model families.

Applicability

This firmware release applies to the following product groups and models:

Product Group	Model
Server Technology® Rack PDUs	PRO4X
Legrand® Access Control	SML SmartLock™
Legrand Sensors	DX2 SmartSensors™
Legrand Asset Management	AMS/AMS2 Strips

This firmware release does not support Server Technology PRO1, PRO2, Sentry CDU, EMCU, EMTH, or EMWS models.

Upgrade Path

This firmware release is intended for factory shipments and firmware upgrades on the units/models stated in the Applicability table above; if you are unsure of the model number of your unit—it is typically viewable from the GUI's *Device Information* page and is also printed on a label located on the device. (This release may not support some custom-engineered models.)

The release package for this firmware update is available at servertech.com/support/rack-pdu-firmware-downloads.

Due to file system changes in Xerus 4.0.x, the following upgrade paths must be followed, or the Xerus-based device may become inoperable and require manual recovery.

If the Applicable Device's Current Firmware Version Is…	Follow These Upgrade Steps
Xerus 4.0.x, 4.1.x	» 4.2.0 » 4.3.12
Xerus 4.2.x, 4.3.x	» 4.3.12

Note: Do NOT downgrade your new Xerus-based product(s) to any prior Xerus Firmware release. A downgrade to ANY prior firmware release is NOT SUPPORTED.

Release Highlights

Bug Fixes

Issue ID	Description
87339	Fixed Continuous LCD Flip when there is an OCP error
87966	Fixed display power save mode backlight timeout issue
